This programme has been collaborating with the European School of Chemistry, Polymers and Materials Science (ECPM) at the University of Strasbourg. Students can study abroad in France for 1 semester to gain international exposure and cross-cultural learning experience.

This programme has been accredited by the Royal Society of Chemistry. Students can take part in the 6-10 week research placement at an accredited university in the United Kingdom or Ireland to gain overseas research experience.

此課程與斯特拉斯堡大學的歐洲化學、聚合物與材料學院 (ECPM) 合作，同學可在法國留學1個學期，獲得國際視野和跨文化學習經驗。

此課程獲得英國皇家化學協會 (RSC) 認證，同學可在英國或愛爾蘭參與一個為期6-10個星期的研究實習，獲得海外研習經驗。

Professional Certification 專業認證

This programme has been recognized by the Hong Kong Association for Testing, Inspection, and Certification (HK TIC). It is the first MSc programme recognized by HK TIC thus far. Graduates with 1 year work experience are eligible to apply for Certified Testing Professional (CTP) in Chemical Testing which is a widely recognized professional status by the local testing laboratories, companies, and industries within the field. Graduates will be exempted from all additional written examinations, but merely attend a professional interview for certification.

This programme has also been accredited by the Royal Society of Chemistry (RSC). It is the first MSc programme and is one of the eleven MSc programmes in Analytical Sciences accredited in Hong Kong and worldwide, respectively. Graduates fully satisfy the academic requirement for the award of Chartered Chemist (CChem). It is a professional status that is internationally recognized within the field of chemical sciences.

此課程是全港首個獲香港測檢認證協會(HKTIC)認可的碩士課程。畢業生只需要1年相關工作經驗，即合資格申請化學測試檢測專業人員認證(CTP)。此認證廣獲行內化驗所、公司和企業認可。畢業生更獲豁免筆試，只需參加專業面試便能獲取認證。

此課程是全港首個及唯一獲英國皇家化學協會(RSC)認證的碩士課程，亦是全球11個獲認證的分析化學碩士課程之一。畢業生即滿足了申請特許化驗師(CChem)的學術要求。此專業資格在化學科學領域得到國際認可。

Disclaimer: The awards of CTP and CChem are subject to the respective awarding bodies HK TIC and RSC, respectively.

Introduction 課程簡介

With a growing demand in the professional requirements of people engaged in the Testing and Certification industry, since 1992, the Chemistry Department at Hong Kong Baptist University has been offering a popular and successful taught MSc programme in Analytical Chemistry to provide training relevant to the needs of public and industrial laboratories as well as research organizations.

This programme has the longest history and experience in Hong Kong and Asia-Pacific region. By a combination of taught courses, structured laboratory works, and supervised research, graduates gain in-depth knowledge of the theoretical principles of modern physico-chemical techniques of chemical analysis and are able to apply their knowledge critically to solve real-world analytical problems.

隨著社會對從事檢測和認證行業人士的专业要求不斷提高，香港浸會大學化學系於1992年開始一直開辦一個授課式的分析化學理學碩士課程，為公營及私營化驗所、工業實驗室和科研機構等培訓分析化學專業人材。

此課程是香港和亞太地區中歷史最悠久的同類課程，結合理論學習、實驗課和專題研習，讓同學能深入掌握現代化學分析方法的原理，同時能將這些知識應用去解決實際工作上的問題。
