

Curriculum 课程内容

Core Courses 核心课程

Analytical Process and Applied Statistics
分析过程与应用统计学

Applied Spectroscopy
应用光谱学

Atomic Spectrometry
原子光谱学

Chemical Instrumentation
化学仪器分析

Laboratory Management
实验室管理

Separation Science
分离分析学

Advanced Analytical Laboratories
先进分析实验课

MSc Dissertation Project
学位论文

Seminars
讲座

Elective Courses 选修课程

Biomedical Analysis
生物医学分析

Environmental Analysis
环境分析

Food Nutrient Analysis
食品营养成分分析

Food Safety Analysis
食品安全分析

Forensic Analysis
法证鉴定

Nanomaterial Analysis
纳米材料分析

Pharmaceutical Analysis
药物分析

Sample Pretreatment Methods
样品处理方法

Surface Analysis
表面分析

Programme Team
师资队伍

Scholarships 奖学金

Prof. Huie, Carmen Wah-Kit Memorial Scholarship & Overseas Scholarship

- For full-time students with good entrance academic qualification

Merit Award

- For students with good academic performance in the study

Exchange Scholarship

- For students participating in the exchange study

- 本科成绩优秀的全日制学生可于入学时获得“许华杰教授纪念奖学金”或“海外奖学金”

- 在课程学习中表现杰出的同学可获得“学习优秀奖”

- 在课程学习中参与交换生计画的同学可获得“交换生奖学金”

Mode of Operation 修课模式

Full-time: 1 year Lectures in 4-5 evenings per week
Lab work on weekday morning and afternoon

Part-time: 2 years Lectures in 2-3 evenings per week
Lab work on Saturday morning and afternoon

Tuition Fee: HK\$160,000 (local students); HK\$170,000 (non-local students)

全日制: 1年 每星期共4-5个晚上 理论课
星期一至五上下午 实验课 和 专题研习

兼读制: 2年 每星期共2-3个晚上 理论课
星期六上下午 实验课 和 专题研习

学费: 港币16万 (本地学生); 港币17万 (非本地学生)

Entrance Requirements 入学要求

B.Sc. (Hons). degree in Chemistry or in other Physical and Life Sciences or equivalent; and English proficiency is required.

化学 或 其他相关 理学学士学位 或 同等学历 ; 申请人亦需达到特定的英语水平。

Entrance Details
入学细节

Exchange Opportunities 交换生计划

This programme has been collaborating with the European School of Chemistry, Polymers and Materials Science (ECPM) at the University of Strasbourg. Students can study abroad in France for 1 semester to gain international exposure and cross-cultural learning experience.

This programme has been accredited by the Royal Society of Chemistry. Students can take part in the 6-10 week research placement at an accredited university in the United Kingdom or Ireland to gain overseas research experience.

此课程与斯特拉斯堡大学的欧洲化学、聚合物与材料学院 (ECPM) 合作，同学可在法国留学1个学期，获得国际视野和跨文化学习经验。

此课程获得英国皇家化学协会 (RSC) 认证，同学可在英国或爱尔兰参与一个为期6- 10个星期的研究实习，获得海外研习经验。

Professional Certification 专业认证

This programme has been recognized by the Hong Kong Association for Testing, Inspection, and Certification (HKTIC). It is the first MSc programme recognized by HKTIC thus far. Graduates with 1 year work experience are eligible to apply for Certified Testing Professional (CTP) in Chemical Testing which is a widely recognized professional status by the local testing laboratories, companies, and industries within the field. Graduates will be exempted from all additional written examinations, but merely attend a professional interview for certification.

This programme has also been accredited by the Royal Society of Chemistry (RSC). It is the first & only MSc programme and is one of the eleven MSc programmes in Analytical Sciences accredited in Hong Kong and worldwide, respectively. Graduates fully satisfy the academic requirement for the award of Chartered Chemist (CChem). It is a professional status that is internationally recognized within the field of chemical sciences.

此课程是全港首个获香港测验认证协会 (HKTIC) 认可的硕士课程。毕业生只需要1年相关工作经验，即合资格申请化学测试检测专业人员认证 (CTP)。此认证广获行内化验所、公司和企业认可。毕业生更获豁免笔试，只需参加专业面试便能获取认证。

此课程是全港首个及唯一获英国皇家化学协会 (RSC) 认证的硕士课程，亦是全球11个获认证的分析化学硕士课程之一。毕业生即满足了申请特许化验师 (CChem) 的学术要求。此专业资格在化学科学领域得到国际认可。

Disclaimer: The awards of CTP and CChem are subject to the respective awarding bodies HKTIC and RSC, respectively.

分析化学理学硕士

MSc in ANALYTICAL CHEMISTRY

Introduction 课程简介

With a growing demand in the professional requirements of people engaged in the Testing and Certification industry, since 1992, the Chemistry Department at Hong Kong Baptist University has been offering a popular and successful taught MSc programme in Analytical Chemistry to provide training relevant to the needs of public and industrial laboratories as well as research organizations.

This programme has the longest history and experience in Hong Kong and Asia-Pacific region. By a combination of taught courses, structured laboratory works, and supervised research, graduates gain in-depth knowledge of the theoretical principles of modern physico-chemical techniques of chemical analysis and are able to apply their knowledge critically to solve real-world analytical problems.

随著社会对从事检测和认证行业人士的专业要求不断提高，香港浸会大学化学系于1992年开始一直开办一个修课式的分析化学理学硕士课程，为公营及私营化验所、工业实验室和科研机构等培训分析化学专业人才。

此课程是香港和亚太地区中历史最悠久的同类课程，结合理论学习、实验课和专题研习，让同学能深入掌握现代化学分析方法的原理，同时能将这些知识应用去解决实际工作上的问题。
